

Otmeloi Way Reconstruction Project Public Meeting

The Kodiak Island Borough will be hosting a **meeting** on **January 10th** from **6:30-8:00 p.m.** at the **Bayside Fire Department** to discuss the Alaska Department of Transportation & Public Facilities' (ADOT&PF) Otmeloi Way Reconstruction Project.

This meeting is being held to provide the community more opportunity to engage in discussion about the proposed alternatives presented by ADOT&PF, including the modified alternative most recently proposed by ADOT&PF's Southcoast Region project staff.

Meeting materials provided by ADOT&PF at their most recent public meeting will be available to facilitate discussion.

The goals of this meeting are to:

- Present information on where ADOT&PF is in the project development process
- Solicit feedback from community members on the pros and cons of the most feasible alternatives
- Build consensus and develop a unified voice that the Borough can use in guiding the project forward in partnership with ADOT&PF

For more information about this meeting, please contact Sara Mason, Community Development Director, Kodiak Island Borough, 907-486-9360 or smason@kodiakak.us.
